Welcome to the U.S. Department of Education's Individuals with Disabilities Education Act (IDEA) website, which brings together IDEA information and resources from the Department and our grantees.

Individuals with Disabilities Education Act | IDEA

From a sociological perspective, social norms are informal understandings that govern the behavior of members of a society. Social psychology recognizes smaller group units, such as a team or an office, may also endorse norms separately or in addition to cultural or societal expectations. In other words, norms are regarded as collective representations of acceptable group conduct as well as ...

Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...

Resilient organizations thrive despite experiencing conditions that are surprising, uncertain, often adverse, and usually unstable. We propose that an organization's capacity for resilience is developed through strategically managing human resources to create competencies among core employees, that when aggregated at the organizational level, make it possible for organizations to achieve the ...

This chapter discusses the relationships between formative and summative assessments"™both in the classroom and externally. In addition to teachers, site-and district-level administrators and decision makers are target audiences. External test developers also may be interested. Teachers inevitably ...

The Relationship Between Formative and Summative

Game theory is the study of the ways in which interacting choices of economic agents produce outcomes with respect to the preferences (or utilities) of those agents, where the outcomes in question might have been intended by none of the agents.The meaning of this statement will not be clear to the non-expert until each of the italicized words and phrases has been explained and featured in some ...

Game Theory (Stanford Encyclopedia of Philosophy)

Most supervisors would find #2 and #3 to be problematic and requiring additional steps. In #2, immediate attention should be given to the possibility that this client should be transferred to another therapist, as a cardinal rule of every profession is "œdo no harm"œ and the highest duty of the supervisor is to protect the

client.
