For many years no serious effort was made to deal systematically with the collection as a whole. It was not until 1919, just after the first world war, that it was placed under my charge, and I was able to embark on the formidable task of sorting it out and compiling a full descriptive catalogue.

### **Introduction to Descriptive Catalogue of the Chinese**

"Descriptive cataloging" is a well-established concept in the tradition of library cataloging in which a distinction is made between descriptive cataloging and subject cataloging, each applying a set of standards,

different qualifications and often also different kinds of professionals.

What is the purpose of cataloging library materials? Library collections house a wide variety of materials on many different topics and in many different formats. The challenge in making these things available for the use of library patrons is letting those patrons know what is in the library collection.

### **What is the purpose of cataloging library materials - LiLI**

Descriptive cataloging involves applying a standardized set of rules, currently RDA: Resource Description and Access, to record the title, authorship, and publication data for a work, describe the physical extent of the work, add bibliographic notes as necessary, and add access points for persons or entities associated with the creation of the work.
