admitted that warming is general and real. Look at the graph piece by piece. Overall temperature was steady from the 1930s to 1976, and then it went up until about 2002 with a spike in the annual data in 1998. Then it stayed roughly steady until 2010, when it jumped again. The global anomalies for 2015 and again for 2016 set new records.
