Project-based learning is a terrific way to link your curriculum with real world events and applications of concepts that your students are learning.

K-12 Math Projects: About Project-Based Learning

Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...
