Alcoholism, also known as alcohol use disorder (AUD), is a broad term for any drinking of alcohol that results in mental or physical health problems. The disorder was previously divided into two types: alcohol abuse and alcohol dependence. In a medical context, alcoholism is said to exist when two or more of the following conditions are present: a person drinks large amounts over a long time ...

In the U.S., growing up in a household with an alcoholic adult is not a rarity. In fact, the American Academy of Child and Adolescent Psychiatry states that for one in five adults in the U.S., this was the case during their childhood. For young children, growing up in a household with an alcoholic can shape the rest of their life.

A high-functioning alcoholic (HFA) is a person who maintains jobs and relationships while exhibiting alcoholism.. Statistics from the Harvard School of Public Health indicated that 31 percent of college students show signs of alcohol abuse and 6 percent are dependent on alcohol. Doctors hope that the new definition will help identify severe cases of alcoholism early, rather than when the ...
