A GUIDE TO THE LITERATURE ON ALGEBRAIC STACKS JAROD ALPER Abstract. We provide an informal guide to useful books and research papers ... Below is a list of research papers which contain fundamental results on stacks and algebraic spaces. The intention of the summaries is to indicate only the results of

A GUIDE TO THE LITERATURE ON ALGEBRAIC STACKS

Overview. Stacks are the underlying structure of algebraic stacks (also called Artin stacks) and Deligne-Mumford stacks, which generalize schemes and algebraic spaces and which are particularly useful in studying moduli spaces. There are inclusions: schemes \hookrightarrow algebraic spaces \hookrightarrow Deligne-Mumford stacks \hookrightarrow algebraic stacks (Artin stacks) \hookrightarrow stacks.

Stack (mathematics) - Wikipedia

Building on the theory of algebraic spaces, the theory of algebraic stacks is then developed. The pattern "basics" quasi-coherent sheaves "geometry" is repeated in Chaps. 8 through 10. The exposition aims for algebraic or Artin stacks (where the stack has a smooth covering by a scheme or algebraic space), but also explains the important ...

Introduction to algebraic stacks Alberto Canonaco

An algebraic space X comprises a scheme U and a closed subscheme $R \rightrightarrows U \rightrightarrows U$ satisfying the following two conditions: 1. R is an equivalence relation as a subset of $U \rightrightarrows U$ 2. ... A far-reaching generalization of algebraic spaces is given by the algebraic stacks.

Algebraic space - Wikipedia

the big fppf site of k is said to be an algebraic stack over k if the diagonal of X is representable by algebraic spaces and X admits a smooth, representable and surjective morphism $U \rightarrow X$ from a scheme U . Throughout this text a \mathcal{X} will always refer to an algebraic stack. We shall say that X is a quotient stack if it is a stack of the form

ALGEBRAIC K-THEORY OF QUOTIENT STACKS

Schemes, algebraic spaces, and algebraic stacks. A ne schemes Lemma Let $f: \text{Spec } S \rightarrow \text{Spec } R$, then $R \rightarrow S$ is a faithfully flat map of rings. Schemes, algebraic spaces, and algebraic stacks. ... Schemes, algebraic spaces, and algebraic stacks. Schemes 1 Schemes, algebraic spaces, and algebraic stacks ...

Schemes, algebraic spaces, and algebraic stacks

We try to give some motivation for the definitions we give in the subsequent videos.

Algebraic Spaces and Stacks: Ideas

We give the definition of algebraic stacks and spaces! Woot! I think algebraic spaces don't get enough love or stacks get too much love. I'm not sure which o...

Algebraic Spaces and Stacks: Definitions

Algebraic stacks include the algebraic spaces (which are precisely the algebraic stacks taking values sets), and like algebraic spaces can be characterized both via a étale description and a more

Introduction - Harvard Mathematics Department

2 INTRODUCING ALGEBRAIC STACKS is commutative and the inner square is cartesian, in other words the morphism induces an isomorphism $E \times_S E \rightarrow E$. We are going to define the stack of elliptic

INTRODUCING ALGEBRAIC STACKS Contents

the language of stacks by following [Gom01]: first I give some motivation and historical remarks, then I define the notion of algebraic spaces and finally we go for the algebraic stacks.

Introduction to stacks - Freie Universität

the tame algebraic stacks are scheme-like from a noncommutative perspective in the sense that their derived categories are generated by a single compact object and the compact objects coincide with the perfect complexes [BVdB03, Theorem 3.1.1],

Geometricity for derived categories of algebraic stacks

The algebraic stack \mathcal{M}_g Raymond van Bommel 9 October 2015 The author would like to thank Bas Edixhoven, Jinbi Jin, David Holmes and Giulio Orecchia for their valuable contributions.

The algebraic stack - Universiteit Leiden

Since formal locally noetherian algebraic spaces have an étale topology, we must compare Definition 1.2 with formal completion of locally noetherian algebraic spaces. To do this, let X be a locally noetherian algebraic space, and $X \dots$ FORMAL GAGA ON ARTIN STACKS 5 (X) ...

FORMAL GAGA ON ARTIN STACKS - Stanford University

some properties of schemes or algebraic spaces can be extended to algebraic stacks. Finally, the contents of Appendix A are used in the paper, whereas Appendix B can be safely ignored by the uninterested reader.

Lectures on algebraic stacks - mat.uniroma1.it

Following this, the theory of algebraic spaces and stacks is developed. The last three chapters discuss more advanced topics including the Keel-Mori theorem on the existence of coarse moduli spaces, gerbes and Brauer groups, and various moduli stacks of curves.

algebraic-spaces-and-stacks-colloquium-publications

algebraic spaces and algebraic stacks, successive generalisations of the concept of a scheme. We will then proceed to see that there is a moduli algebraic stack \mathcal{M} of elliptic curves, thus solving

MINOR THESIS: FROM FIBERED CATEGORIES TO ALGEBRAIC STACKS

Versal Deformations and Algebraic Stacks 167 We call a groupoid F limit preserving if it is compatible with filtering direct limits in \mathcal{C} in the obvious sense, i.e., if $\text{lim}_{\leftarrow} F(A_i) \rightarrow F(\text{lim}_{\leftarrow} A_i)$ is an

Versal deformations and algebraic stacks

This book is an introduction to the theory of algebraic spaces and stacks intended for graduate students and researchers familiar with algebraic geometry at the level of a first-year graduate course.

stack, and its connection with algebraic geometry. We begin by discussing three typical examples of stacks, two of which take place in the category of topological spaces, while the third is of arithmetic

Algebraic Stacks - page.mi.fu-berlin.de

@Ariyan Javanpeykar : I am sorry, but your answer now doesn't make much sense. There is a confusion about the meaning of "coarse moduli space". What you extract from Laumon - Moret-Bailly is the definition of the coarse sheaf. The definition of coarse moduli space in Keel-Mori is different.

algebraic geometry - The coarse moduli space of a Deligne

In generalizing this to schemes, one asks for a locally ringed topological space equipped with a structure sheaf, allowing for closed and nonclosed points. To generalize this further, we define an object called a stack which will allow points equipped with nontrivial automorphisms: it will be a category with a Grothendieck topology.

algebraic geometry - Stacks and Grothendieck topology

is an algebraic space, see Algebraic Stacks, Lemma 9.8. Note that every morphism $X \rightarrow Y$ from an algebraic space to an algebraic stack is representable by algebraic spaces, see Algebraic Stacks, Lemma 10.11. We will use this basic result without further mention. 3. Properties of morphisms representable by algebraic spaces
