Associate Professor of Biology Luana Maroja's report about the state of free speech at Williams is the most important statement from a member of the faculty in years. Let's go through it. Day 1. As background, there has been a long-running debate at EphBlog about how much (malign) influence progressive members of the Williams faculty have on the evolution of the College.

Life is a characteristic that distinguishes physical entities that have biological processes, such as signaling and self-sustaining processes, from those that do not, either because such functions have ceased (they have died), or because they never had such functions and are classified as inanimate. Various forms of life exist, such as plants, animals, fungi, protists, archaea, and bacteria.

Saying that it has always been this way, doesn't count as a legitimate justification to why it should stay that way. Teacher and administrators all over the world are doing amazing things, but some of the things we are still doing, despite all the new solutions, research and ideas out there is, to put it mildly, incredible.
