specification are suitable for any purpose; nor that the implementation of the advanced message queuing protocol specification will not infringe any third party patents, copyrights, trademarks or other rights. the authors will not be liable for any direct, indirect, special, incidental or consequential damages arising out of or relating to any use, implementation or distribution of the advanced message queuing protocol specification.

AMQP v1.0 (revision 0)

to interoperate with server and client implementations from different vendors similarly using AMQP. This document defines a JMS mapping for AMQP such that client implementations may interoperate with each other, and servers may offer specific functionality necessary to support particular JMS 2.0 features. Status: This document was last revised or approved by the OASIS Advanced Message Queuing Protocol (AMQP) Bindings and Mappings (AMQP-BINDMAP) TC on the above date.

Advanced Message Queuing Protocol (AMQP) JMS Mapping Version 1

Since its inception, the AMQP Working Group has stated that backwards compatibility for protocol versions created before 1.0 series could not be assumed. After 1.0 backwards compatibility is a core goal of the AMQP Working Group.
