Geography. The people of ancient India lived in a land of extremes. The terrain was varied and often presented great challenges. Occasional extremes of weather such as droughts and monsoons were also part of life in this land. However, great civilizations developed and flourished amidst the rivers, mountains, plains and deserts of the subcontinent.

Political system is a social institution which deals with the governance of a state and its relationship with the people. Political system of a country denotes the structure of institutions that constitute the State and its Government. India is no different and it had also developed government and political institutions to give shape and form to the fundamental principles.
