To successfully communicate the characteristics of an information space, I needed an approach for creating easily understood diagrams. To be useful to my audience, the diagrams must communicate the "big picture" of the website to stakeholders, while providing enough detail to be useful for the development team.

A conceptual model is a representation of a system, made of the composition of concepts which are used to help people know, understand, or simulate a subject the model represents. It is also a set of concepts. Some models are physical objects; for example, a toy model which may be assembled, and may be made to work like the object it represents.. The term conceptual model may be used to refer ...
