

operations management 6th edition pdf

Expert authorship, an engaging writing style, and an interesting collection of cases combine to communicate the importance of managing operations and processes within a successful organisation. Operations Management provides a strategic perspective, whilst also examining the practical issues which organisations face on a day to day basis. It uses over 120 examples from all over the world, reflecting the balance of economic activity between service (c.75%) and manufacturing (c.25%) operations.
