The history of HIV/AIDS in Australia is distinctive, as Australian government bodies recognised and responded to the AIDS pandemic relatively swiftly, with the implementation of successful disease prevention and public health programs, such as needle and syringe programs (NSPs). As a result, despite significant numbers of at-risk group members contracting the disease in the early period ...

Introduction. The short answer to the question posed in our title is that it is difficult because policy makers make it so. They do this by seeking simple non-scientific answers to complex problems.

Why is changing health-related behaviour so difficult

Poverty is the scarcity or the lack of a certain (variant) amount of material possessions or money. Poverty is a multifaceted concept, which may include social, economic, and political elements. Absolute poverty, extreme poverty, or destitution refers to the complete lack of the means necessary to meet basic personal needs such as food, clothing and shelter.

Resilient organizations thrive despite experiencing conditions that are surprising, uncertain, often adverse, and usually unstable. We propose that an organization's capacity for resilience is developed through strategically managing human resources to create competencies among core employees, that when aggregated at the organizational level, make it possible for organizations to achieve the ...
