

wiley financial accounting 6th pdf

Financial modeling is the task of building an abstract representation (a model) of a real world financial situation. This is a mathematical model designed to represent (a simplified version of) the performance of a financial asset or portfolio of a business, project, or any other investment.. Typically, then, financial modeling is understood to mean an exercise in either asset pricing or ...

Accounting: Tools for Business Decision Making, 6th

Inflation accounting comprises a range of accounting models designed to correct problems arising from historical cost accounting in the presence of high inflation and hyperinflation. For example, in countries experiencing hyperinflation the International Accounting Standards Board requires corporations to implement financial capital maintenance in units of constant purchasing power in terms of ...
